## Door-Tran and Door County Medical Center Partnership Receives Support

Last February [Door-Tran](#) expanded its Half-Price Travel Voucher Program to serve patients who needed transportation when they were discharged from the [Door County Medical Center \(DCMC\)](#) or other transportation needs while Door-Tran's office was closed. Since 2009, Door-Tran and the hospital have shared resources when a patient was unable to afford a trip with a private taxi during Door-Tran's hours, however this expansion provides assistance 24 hours a day, seven days a week.

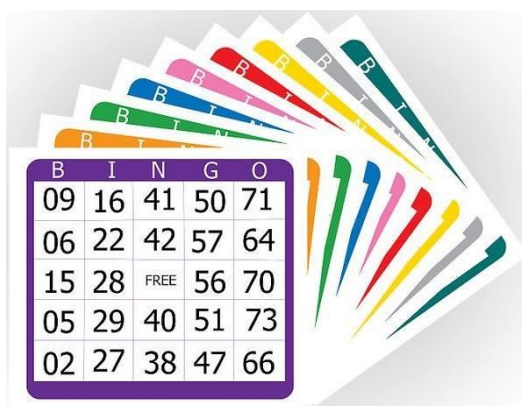

Emergency room staff tracked a need for affordable options for individuals who came into the ER with an ambulance and needed a ride home. Many times, individuals were not able to afford the cost of a taxi and DCMC, through the Ministry Fund, were depleting their resources. The expanded program now allows for Door-Tran to contribute to the cost of the taxi by having a supply of vouchers available in the emergency room.

Recently, the [Women's Fund of Door County](#) and donors of the [Door County Community Foundation](#) recognized the importance of this program and granted \$6,000 towards this program. Since February, almost 30 rides have been taken at an average cost of \$66.40. "Most trips have been to get people home. There was an incident of a person who went to another hospital via ambulance and their loved one was stranded at the emergency room.

A voucher was used to transport the loved one to the other medical facility and allowed them to be at their side”, said Nikki Voight, Mobility Manager Assistant at Door-Tran.

Door-Tran’s mission is to ensure Door County residents have affordable, available and accessible transportation. Services offered include volunteer transportation, half-price travel and gas vouchers, vehicle purchase and repair loans and repair grants. In addition to these services, knowledgeable staff are available to provide transportation referral and trip planning services.
